DESCRIPTION AND SCOPE OF PROJECT

The Chief, Medical Staff, has surveyed the field for procurement of medical personnel and points out the decreasing availability of doctors and medical technicians. Generally, doctors become available at the end of term in July of each year, but after the present July, Service needs and other needs will consume the available personnel. Medical technicians are primarily procured from former Navy Petty Officers, and these too are becoming harder to find. Meanwhile, covert plans are under consideration which will require a substantial number of both doctors and technicians. Chief, Medical Staff, recommends establishment of a pool to be kept
